Actual result	App is still in portrait view mode
Expected result	View is changed to horizontal mode
Notices	Issue is reason to TC 21 being blocked

Issue No.	#6
TC No.	27
Issue	At least three characters long password is required while logging in
Environment	App Version: 5.47.4 Hardware: Mi 9T Smartphone; Xiaomi System: Android System Version: 11 RKQ1 with MIUI 12.1.4
Priority	Urgent
Severity	Critical
Repeatability	Yes
Initial condition	Existing OLX account with one character long password
Test data	Used password is just “a” character
Steps	<ol style="list-style-type: none"> <li>1. Open app</li> <li>2. Go to account page</li> <li>3. Use Log in/Create Account button</li> <li>4. Enter e-mail address</li> <li>5. Enter one letter password</li> <li>6. Log in</li> </ol>
Actual result	“Password must be at least 3 characters long” info is displayed
Expected result	“Password too short” info is displayed
Notices	While three characters long password is to short in terms of security itself there is also a serious inconsistency – while one character is allowed when creating account it couldn’t be used to log in

Issue No.	#7
TC No.	28
Issue	It’s possible to login using very long password (950 characters)
